

BIME 6004
Biology for Bioengineers

Fall 2017

CLASS DAYS and TIME: Wednesdays and Fridays 3:00 to 4:30 PM

CLASSROOM: 444B

COURSE FACULTY: Susan Weintraub, Ph.D. (Course Director); Yidong Bai, Ph.D.; Borries Demeler, Ph.D.; Lily Dong, Ph.D.; Jean Jiang, Ph.D.; Yuzuru Shiio, M.D., Ph.D.; Rui Sousa, Ph.D.; Kexin Xu, Ph.D.

OFFICE LOCATION and HOURS: To be arranged with individual faculty

READ THIS DOCUMENT CAREFULLY - YOU ARE RESPONSIBLE FOR ITS CONTENTS.

COURSE DESCRIPTION AND OBJECTIVES

This course provides a broad background in biological concepts with specific attention given to biological processes important in bioengineering. Topics will include biochemistry, genetics, molecular biology, cell biology, and physiology. Applications will emphasize understanding cellular processes important in bioengineering, such as gene therapy and tissue repair and regeneration.

Pre-requisites –(none)

Semester credit hours – 3

By the end of this course, each student should be able to:

- Understand the basic concepts of biology and biochemistry
- Understand the basic concepts of methodology and technology used for biomedical research

COURSE ORGANIZATION

The main teaching modalities used in this course include:

- 1) Didactic lectures designed to convey information to the students in traditional lecture format
- 2) Student presentations about methodology and technology

Materials – There are no specific course materials required for this course

Computer Access – Students will need access to a computer and the Internet to obtain course materials and for preparation of methodology/technology presentations.

Reading Assignments – Reading assignments will be posted prior to lectures.

ATTENDANCE

Attendance is mandatory. Students are expected to attend all classes and to be on time. In cases of illness or other serious event, the student is responsible for all materials presented on that day. There will be no make-ups for missed lectures or discussions. A student who misses an assigned presentation will receive no credit for that assignment.

TEXTBOOKS

Required: (none)

Strongly recommended: *The Cell: A Molecular Approach*; seventh edition (Geoffrey M. Cooper and Robert E. Hausman), Sinauer Associates, 2016; ISBN-13: 978-1605352909

GRADING POLICIES AND EXAMINATION PROCEDURES

The course will have two equally-weighted closed-book, in-class exams and graded student presentations. The content and format of the exams will vary, depending on the instructor. In case of illness, a doctor's note will be required attesting to the seriousness of the illness. A make-up exam will be arranged when justified. Requirements for student presentations will be announced after the beginning of the semester, and will depend on the number of students enrolled.

Grading System

A = 90-100% B = 80-89% C = 70-79% F = < 69%

REQUESTS FOR ACCOMMODATIONS FOR DISABILITIES

In accordance with policy 4.2.3, **Request for Accommodation Under the ADA and the ADA Amendments Act of 2008 (ADAAA)**, any student requesting accommodation must submit the appropriate request for accommodation under the American with Disabilities Act (ADA, form 100). to his/her appropriate Associate Dean of their School and a copy to the ADA Coordinator. Additional information may be obtained at <http://uthscsa.edu/eoo/request.asp>.

ACADEMIC INTEGRITY AND PROFESSIONALISM

Any student who commits an act of academic dishonesty is subject to discipline as prescribed by the UT System Rules and Regulations of the Board of Regents. Academic dishonesty includes, but is not limited to, cheating, plagiarism, collusion, the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an exam for another person, signing attendance sheets for another student, and any act designed to give unfair advantage to a student or the attempt to commit such an act. Additional information may be obtained at <http://catalog.uthscsa.edu/generalinformation/generalacademicpolicies/academicdishonestypolicy/>

TITLE IX AT UTHSCSA

Title IX Defined:

Title of the Education Amendments of 1972 is a federal law that prohibits sex discrimination in education. It reads "no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance."

University of Texas Health Science Center San Antonio's Commitment:

University of Texas Health Science Center San Antonio (UTHSCSA) is committed to maintaining a learning environment that is free from discriminatory conduct based on gender. As required by Title IX, UTHSCSA does not discriminate on the basis of sex in its education programs and activities, and it encourages any student, faculty, or staff member who thinks that he or she has been subjected to sex discrimination, sexual harassment (including sexual violence) or sexual misconduct to immediately report the incident to the Title IX Director.

In an emergency, victims of sexual abuse should call 911. For non-emergencies, they may contact UPD at 210-567-2800. Additional information may be obtained at <http://students.uthscsa.edu/titleix/>

EMAIL POLICY

All course communication will be conducted by e-mail using the student's Livemail account. Students are expected to check their e-mail accounts regularly and are responsible for materials, assignments, notifications, and test materials distributed by e-mail.

USE OF RECORDING DEVICES

The use of recording devices is allowed.

ELECTRONIC DEVICES

Cell phones may not be used in class and must be shut off during class. Computers or tablets can be used in class for class—related purposes and note taking. They may not be used for e-mail, web surfing, or any activity not related to class.

CLASS SCHEDULE
 BIME 6004
 Biology for Bioengineers
 Fall 2017

| Week | Date | Topic | Instructor |
|------|----------|--|------------|
| 1 | 8/30/17 | An Overview of Cells and Cell Research | Demeler |
| | 9/1/17 | Molecules and Membranes | Demeler |
| 2 | 9/6/17 | Bioenergetics and Metabolism | Bai |
| | 9/8/17 | Genes and Genomes; The Nucleus | Xu |
| 3 | 9/13/17 | Epigenetics (video) | Xu |
| | 9/15/17 | Replication, Maintenance, and Rearrangements of Genomic DNA | Sousa |
| 4 | 9/20/17 | RNA Synthesis and Processing | Sousa |
| | 9/22/17 | Protein Synthesis, Processing, and Regulation | Sousa |
| 5 | 9/27/17 | Protein Sorting and Transport: The Endoplasmic Reticulum, Golgi Apparatus, and Lysosomes | Jiang |
| | 9/29/17 | <i>Review</i> | |
| 6 | 10/4/17 | <i>Exam-1</i> | |
| | 10/6/17 | The Cytoskeleton and Cell Movement | Dong |
| 7 | 10/11/17 | The Plasma Membrane | Jiang |
| | 10/13/17 | No class | |
| 8 | 10/18/17 | Mitochondria, Chloroplasts, and Peroxisomes | Bai |
| | 10/20/17 | Cell Walls, the Extracellular Matrix, and Cell Interactions | Dong |
| 9 | 10/25/17 | The Cell Cycle | Dong |
| | 10/27/17 | Cell Signaling | Shiio |
| 10 | 11/1/17 | Cell Death and Cell Renewal | Shiio |
| | 11/3/17 | Cancer | Shiio |
| 11 | 11/8/17 | Proteomics | Weintraub |
| | 11/10/17 | <i>Review</i> | |
| 12 | 11/15/17 | <i>Exam-2</i> | |
| | 11/17/17 | Student presentations | |
| 13 | 11/22/17 | <i>Thanksgiving</i> | |
| | 11/24/17 | <i>Thanksgiving</i> | |
| 14 | 11/29/17 | Student presentations | |
| | 12/1/17 | Student presentations | |
| 15 | 12/6/17 | Student presentations | |
| | 12/8/17 | Student presentations | |
| 16 | 12/13/17 | Student presentations | |
| | 12/15/17 | Student presentations | |
