

MICR 5031
Pathogenic Microbiology
SYLLABUS and SCHEDULE
Fall 2018

CLASS DAYS and TIMES: Mondays 9:00 – 10:00 and 10:15 - 11:15 am

Wednesdays 9:00-10:00 am

Notes: On Wednesday Aug 22, there is a second class from 10:15 - 11:15 am

On Wednesday Oct 17, there is a second class from 10:15 - 11:15 am

On Monday Oct 22, classes start at 8:00 am and 9:10 am

On Wednesday Oct 31, there is a second class from 10:15 - 11:15 am

Note: In-class exam2 is on Friday, Nov 9 from 9 -11:00 am

CLASSROOM: 5.064V

COURSE FACULTY:

David Kolodrubetz, PhD (Course Director)

Kolodrubetz@UTHSCSA.EDU

Evelien Bunnik, PhD

Bunnik@UTHSCSA.EDU

Peter Dube, PhD

Dube@UTHSCSA.EDU

David Kadosh, PhD

Kadosh@UTHSCSA.EDU

T.R. Kannan, PhD

Kannan@UTHSCSA.EDU

Xiao-Dong Li, MD, PhD

LiX8@UTHSCSA.EDU

Brian Wickes, PhD

Wickes@UTHSCSA.EDU

Yan Xiang, PhD

XiangY@UTHSCSA.EDU

Guangming Zhong MD, PhD

Zhongg@UTHSCSA.EDU

OFFICE LOCATIONS and HOURS: To be arranged with individual faculty

TELEPHONE NUMBERS: Please contact faculty by e-mail or by visiting their offices

READ THIS SYLLABUS CAREFULLY - YOU ARE RESPONSIBLE FOR ITS CONTENTS.

COURSE DESCRIPTION AND OBJECTIVES:

Descriptions of basic microbial structure, physiology, and genetics, and mechanisms by which bacterial, viral, fungal, and parasitic pathogens cause disease.

By the end of this course, each student should be able to:

- Understand the basic concepts of microbial pathogenesis.
- Understand the basic mechanisms pathogens use to interact with the immune system.
- Understand basic aspects of microbial structure, function, physiology and genetics.

PRE-REQUISITES: None

SEMESTER CREDIT HOURS: 3

MATERIALS: There are no specific materials required for this course.

COURSE ORGANIZATION:

The main teaching modalities used in this course are:

- 1) Didactic lectures designed to convey information to the students in traditional lecture format.
- 2) Classroom discussions of manuscripts and homework problems designed to engage the student in active learning.

COMPUTER ACCESS: Students will need access to a computer and the internet.

READING ASSIGNMENTS: If a particular class has a required reading assignment, it will be distributed by individual faculty prior to class.

ATTENDANCE:

Although attendance is not taken, your presence in class is expected since there is no one textbook that covers the material presented in this course. If a student misses class due to severe illness or other extreme cause, they are still responsible for the content presented on that day. There are several classes in which grades are assigned for participation in research paper discussions. There will be no make-up available for missed paper discussions; if you miss a class with a graded paper discussion, you will get no credit for that assignment. Attendance at all in-class exams is mandatory. If a student misses a scheduled exam, a makeup exam will not be given, except under extraordinary circumstances. The definition of “extraordinary circumstances” is solely at the discretion of the Course Director, but would include the sudden onset of an incapacitating illness or the recent death of an immediate family member.

TEXTBOOKS:

Required: None

Recommended: None

GRADING POLICIES AND EXAMINATION PROCEDURES:

The course will have three equally weighted exams that will have an in class component and a take-home component. The exam content can take any form (long answer, short answer, multiple-choice, etc.) at each instructor’s discretion. For the take-home exams, you will have a minimum of 3 days to complete the exam. Attendance at all in-class exams is mandatory. If a student misses a scheduled exam, a makeup exam will not be given, except under extraordinary circumstances. The definition of “extraordinary circumstances” is solely at the discretion of the Course Director, but would include the sudden onset of an incapacitating illness or the recent death of an immediate family member.

Grading System

The expected grading scale is shown below, although the Course Director reserves the right to “curve” the grade, if appropriate.

A = 90-100%

B = 80-89%

C = 71-79%

F = at or below 70%

USE OF ELECTRONIC DEVICES:

The use of any recording device is not allowed without the express consent of each individual instructor. Cell phones may not be used in class and must be shut off during class. Computers or tablets can be used in class for class-related purposes and note taking. They may not be used for e-mail, web surfing, or any activity not related to class.

COMMUNICATION POLICY:

All course communication will be done by e-mail using the student's Livemail account. Thus, it is each student's responsibility to check their e-mail accounts daily as they are responsible for materials, assignments, notifications, and tests distributed by e-mail. In turn, Dr. Kolodrubetz, the Course Director, will check his uthscsa e-mail several times a day in case any pressing questions or concerns arise. Although e-mail is often the easiest way to communicate, it should be emphasized that Dr. Kolodrubetz's office door is always "open" if you would prefer to stop by to discuss something in person.

REQUESTS FOR ACCOMODATIONS FOR DISABILITIES:

In accordance with policy 4.2.3, **Request for Accommodation Under the ADA and the ADA Amendments Act of 2008 (ADAAA)**, any student requesting accommodation must submit the appropriate request for accommodation under the American with Disabilities Act (ADA, form 100). to the appropriate Associate Dean of the Graduate School and a copy to the ADA Coordinator. Additional information may be obtained at <http://uthscsa.edu/eeo/request.asp>.

ACADEMIC INTEGRITY AND PROFESSIONALISM:

Any student who commits an act of academic dishonesty is subject to discipline as prescribed by the UT System Rules and Regulations of the Board of Regents. Academic dishonesty includes, but is not limited to, cheating, plagiarism, collusion, the submission for credit of any work or materials that are attributable in whole or in part to another person, taking an exam for another person, signing attendance sheets for another student, and any act designed to give unfair advantage to a student or the attempt to commit such an act. Additional information may be obtained at

<http://catalog.uthscsa.edu/generalinformation/generalacademicpolicies/academicdishonestypolicy/>

Failure to abide by any of these rules of Academic Integrity will result in a grade of zero for the exam in question and a student in breach of these Professional Standards may not receive an overall course grade higher than a "C".

TITLE IX AT UTHSCSA:

Title IX Defined:

Title of the Education Amendments of 1972 is a federal law that prohibits sex discrimination in education. It reads "no person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance."

University of Texas Health Science Center San Antonio's Commitment:

University of Texas Health Science Center San Antonio (UTHSCSA) is committed to maintaining a learning environment that is free from discriminatory conduct based on gender. As required by Title IX, UTHSCSA does not discriminate on the basis of sex in its education programs and activities, and it encourages any student, faculty, or staff member who thinks that he or she has been subjected to sex discrimination, sexual harassment (including sexual violence) or sexual misconduct to immediately report the incident to the Title IX Director.

In an emergency, victims of sexual abuse should call 911. For non-emergencies, they may contact UPD at 210-567-2800. Additional information may be obtained at <http://students.uthscsa.edu/titleix/>

MICR 5031
Pathogenic Microbiology
CLASS SCHEDULE
Fall 2018

Week	Date	Time	Topic	Special Comments	Instructor
Week 1	Mon 8/20	9:00	Introduction/ Business meeting		Kolodrubetz
	Wed 8/22	9:00 10:15	Major pathogenic mechanisms I Major pathogenic mechanisms II		Dube Dube
Week 2	Mon 8/27	9:00 10:15	Growth and cell division I Growth and cell division II		Kadosh Kadosh
	Wed 8/29	9:00	Cell wall components and structure in pathogenesis		Li
Week 3	Mon 9/3		No class, Labor Day Holiday		
	Wed 9/5	9:00	DJK Class #1 - Overview: Regulation and The Central Dogma of Molecular Biology		Kolodrubetz
Week 4	Mon 9/10	9:00	DJK Class #2 - Genome structure and genomics		Kolodrubetz
		10:15	DJK Class #3 - Whole genome analysis and cloning basics		Kolodrubetz
	Wed 9/12	9:00	DJK Class #4 - Bacterial genetics, transposons and DNA rearrangements		Kolodrubetz
Week 5	Mon 9/17	9:00	DJK Class #5 - Prokaryotic transcriptional regulation		Kolodrubetz
		10:15	DJK Class #6 - Measuring RNA levels and protein-DNA interactions		Kolodrubetz
	Wed 9/19	9:00	DJK Class #7 - Interactive discussion of homework assignment covering methods in DJK classes 2 – 6		Kolodrubetz
Week 6	Mon 9/24	9:00	DJK Class #8 - Eukaryotic transcription and its regulation		Kolodrubetz
		10:15	DJK Class #9 - Transcriptional silencing and epigenetics		Kolodrubetz
	Wed 9/26	9:00	DJK Class #10 - Assessing protein-protein interactions and altering mammalian cell genomes <i>in vitro</i>		Kolodrubetz
Week 7	Mon 10/1	9:00	DJK Class #11 - DNA mutation and repair and making mutations in animal models		Kolodrubetz
		10:15	DJK Class # 12 – Enzymes, <i>in vitro</i> assays, microscopy		Kolodrubetz
	Wed 10/3	9:00	DJK Class # 13 - Interactive discussion of homework assignment covering methods in DJK classes 8 - 12		Kolodrubetz
Week 8	Mon 10/8	9:00	Topics in Gram + pathogenesis I		Li
		10:15	Topics in Gram + pathogenesis II		Li
	Wed 10/10	9:00	Topics in Gram + pathogenesis III		Li

Week 9	Mon 10/15	9:00 – 11:00	In class exam 1, weeks 1-6 Take home exam 1 e-mailed to the class	Room TBD	Kolodrubetz
	Wed 10/17	9:00 10:15	Colonization and tissue damage Intracellular pathogens and <i>Chlamydia</i> I	Two Wednesday Classes	Zhong Zhong
	Sun 10/21		Take Home Exam 1 due by 5:00 pm		Kolodrubetz
Week 10	Mon 10/22	8:00 9:10	Intracellular pathogens and <i>Chlamydia</i> II Intracellular pathogens and <i>Chlamydia</i> III	Class starts at 8:00 am	Zhong Zhong
	Wed 10/24	9:00	Intracellular pathogens and <i>Chlamydia</i> IV		Zhong
Week 11	Mon 10/29	9:00 10:15	Atypical pathogens I Atypical pathogens II		Kannan Kannan
	Wed 10/31	9:00 10:15	Bacterial Toxins I Bacterial Toxins II	Two Wednesday Classes	Kannan Kannan
Week 12	Mon 11/05	9:00 10:15	Eukaryotic pathogens I Eukaryotic pathogens II		Wickes Kadosh
	Wed 11/07	9:00	Eukaryotic pathogens III		Wickes
	Fri 11/9	9:00 – 11:00	In class exam 2, weeks 7-11 Take home exam 2 e-mailed to the class	Friday Exam Room TBD	Kolodrubetz
Week 13	Mon 11/12	9:00 10:15	Eukaryotic pathogens IV Eukaryotic pathogens V		Kadosh Kadosh
	Wed 11/14		No class, attend the vaccine conference on Nov 16/17		
	Thu 11/15		Take Home Exam 2 due by 5:00 pm		Kolodrubetz
Week 14	Mon 11/19		No Class (Thanksgiving Week)		
	Wed 11/21		No Class (Thanksgiving Week)		
Week 15	Mon 11/26	9:00 10:15	Eukaryotic pathogens VI Eukaryotic pathogens VII		Bunnik Bunnik
	Wed 11/28		No Class		
Week 16	Mon 12/3	9:00 10:15	Introduction to virology I Introduction to virology II		Xiang Xiang
	Wed 12/5	9:00	Introduction to virology III		Xiang
Week 17	Mon 12/10	9:00 – 11:00	In class exam 3, weeks 12-16 Take home exam 3 e-mailed to the class		Kolodrubetz
	Thu 12/13		Take Home Exam 3 due by 5:00 pm		Kolodrubetz
