COURSE DESCRIPTION AND OBJECTIVES

This course will provide the learner with an overview of public health policy and analysis. The reading will be tied to current events by the student's search of valued news media. By the end of the term the learner will develop a written project that will include elements discussed in the course. When appropriate this course will utilize new and emerging public health policies to supplement course material

Pre-requisites – Acceptance into the Master of Science in Dental Hygiene graduate program

Semester credit hours – 3 credit hours on-line

By the end of this course, each student should be able to:

- Demonstrate understanding of the interdisciplinary approach to health policy development.
- Demonstrate understanding of vocabulary and issues related to health policy analysis.
- Demonstrate their ability to analyze multiple factors that contribute to public health policy analysis.
- Demonstrate understanding of their professional role in policy analysis in their local environment.
- Demonstrate critical thinking, research, and problem-solving skills expected of a master level dental hygienist by successfully completing the activities.

Students will have the opportunity to demonstrate **professionalism** by:

- Communicating in a professional manner using electronic medium of online learning
- Exhibiting respect for other students learning styles
- Completing and submitting assignments on time
- Becoming fully engaged in the online discussions

Students will have the opportunity to demonstrate **integrity** by:

- Completing on-line assessments of learning individually
- Collaborating equally with other students to enhance the learning experience

Students will have the opportunity to demonstrate the principles of life-long learning by:

- Researching and developing concepts either by expanding on current knowledge and skills or acquiring new knowledge and skills.

COURSE ORGANIZATION

The main teaching modalities used in this course include: The Learning Management System CANVAS

1) Discussion Board: Students will develop and discuss questions they develop from the reading under the guidance of faculty

2) Current Event Articles and Case Discussion: Students will research, locate, and analyze media articles from valued sites that tie directly to the reading materials.

3) Written Project: The Master student will be required to develop a policy analysis written project based on the course materials and current public health policy issues. The Master student will also act as senior peer reviewer for the Bachelor of Science Degree Completion student.

4) Assessment skills: The Master student will gain experience as mentor while peer reviewing and evaluating learning by the Bachelor of Science Degree Completion student.

Materials – Reading material from the text, websites, documents, videos, discussion board interaction along with a written project

Computer Access – The student will need a computer able to access and interact with the UTHSCSA website, CANVAS, and internet sites. The student will need to be able to upload documents, files and videos. It is possible the student will need a webcam for video conferencing with students and faculty.

Reading Assignments – All reading assignments will be clearly stated in each module of the course on CANVAS

GRADING POLICIES AND EXAMINATION PROCEDURES

Graded activities in this course:

- Students are required to locate **current event (CE) articles** related to the reading assignments from the text as assigned. Current events article are defined as articles from reputable news sources that discuss events that occurred within 30 days of the assignment date. Each student will post one original CE article in the Discussion Board and respond to at least two other submissions by other students in this course. The CE article must be cited and attached to the discussion thread for easy access. All students are required to participate fully by creating Discussion Questions. These questions and the interaction will help determine the assessments of learning and participation.
- Each student is required to read, discuss and answer questions related to the Cases in specific chapters of the text.

- **Policy Analysis project:** The Master's student will develop a policy analysis by choosing a policy topic found in Chapter 5 of the text.

Grading System

This course is graded on a point scale; with a possible 1000 points. The Master student must receive grade of "C" to pass the course. However, must maintain a cumulative "B" to remain in the program.

A = 900-1000 B = 800-899 C = 700-799 F = < 699

DISCUSSION BOARD INTERACTION WITH CURRENT EVENT ARTICLES AND CASES	75%
POLICY ANALYSIS PAPER	25%
